Video Tutorial

WHAT YOU DO:

Using any color of chalk, draw a variety of circles on your paper. Choose another color and add in dots. (Dots are circles that are filled in.) The dots can be in all shapes and sizes. On another sheet of construction paper draw a variety of curve lines. Choose another color and practice drawing angle lines.

Practice drawing straight lines. They can be thick or thin and you can criss cross the lines. You can add them to the drawing with the circles and dots and or to the paper with the curved lines and angle lines. You have created an abstract chalk drawing. Now, take your chalk, go outside, and create your own really BIG abstract design on the sidewalk.

HOW YOU CAN SHARE:

Take a picture of your Highway Men sketches and share them, be sure to tag it **#artworksanywhere**.
